EC-Council Secures a Partnership Deal with South China University of Technology (SCUT)

Southern China, January 2008 - EC-Council University is honored to formalize a strategic tie-up with one of the largest universities in Southern China, the South China University of Technology (SCUT). SCUT, which was established in 1952, is widely recognized as one of the most creative and influential universities in China that has trained nearly 100,000 talented graduates in science and technology and the first university to have set up an Electronic Commerce college.

Mr George Lin Hua, SCUT's Director of Education Cooperation commented on SCUT's devotion to the research and development arena and its commitment to impart the latest knowledge to their students, fulfilling their social responsibility requirements. As SCUT progresses on, it has placed greater emphasis in developing international collaboration to gain the desired knowledge and consciously create win-win situations for all including the partnership with EC-Council University.

EC-Council University is a well established and world-renowned institution, known for its advanced technology and knowledge in the internet security space. This collaboration will definitely benefit the students as SCUT's partnership with EC-Council University will equip them with the most current knowledge and skill sets in the information security industry. Together with SCUT, EC-Council University will produce more highly skilled IT professionals, especially in the arena of information security. EC-Council is confident that the partnership with SCUT is well positioned to aid in scaling greater heights as well as contributing to the community in the Southern China region (including Hong Kong and Macau).

About South China University of Technology

South China University of Technology (SCUT) is one of China's key universities operating under the direct leadership of the State Ministry of Education. The campus, which is situated in Guangzhou, a southern metropolitan in China has been named as "Civilized Campus" by the China Ministry of Education. SCUT is a culture-rich area amidst beautiful surroundings of lakes, mountains and lush greenery, and traditional buildings and modern architecture. Facing the new century, SCUT intends to accelerate its education reforms by gearing the university from multidiscipline-oriented to integration-oriented, so as to build SCUT into a top-ranking State university and a famous world-class university.

About EC-Council University

EC-Council University is a private learning institution, offering programs at the master's degree level in e-Business, Security Science and Information Technology. Our programs are designed to encourage success and develop lifelong learning patterns for the information security industry. Each EC-Council University course has specific learning objectives and outcomes, contained in focused course outlines and syllabi that articulate the educational achievements to be accomplished. For more information on EC-Council University programs, visit the weblink at <http://www.eccuni.us>

About EC-Council

The International Council of E-Commerce Consultants (EC-Council) is a member-based organization that certifies individuals in various e-business and security skills. It is the owner and developer of the world famous Certified Ethical Hacker course, Computer Hacking Forensics Investigator program, License Penetration Tester program and various other programs offered in over 60 countries around the globe. These certifications are recognized worldwide and have received endorsements from various government agencies including the US Federal Government via the Montgomery GI Bill, and the US Government National Security Agency (NSA) and the Committee on National Security Systems (CNSS) certifying EC-Council Network Security Administrator (ENSA) program for meeting the 4011 training standard for information security professionals.
